Community Matters

Commitment to Helping our Communities and Staff Thrive

MI's 2025 Training Day at Montcalm Community College was a day focused on growth, connection, and leveling up together. Staff from across the credit union came together for targeted sessions on internal communication, performance reviews for both Loan and Service Representatives, and meaningful conversations around personal and professional development. It was a great opportunity to sharpen our skills, learn from one another, and continue building the kind of team culture that puts members first.
